## The Excellent Qualities

Of the delightful liquid fruit remedy, Syrup of Figs, commend it to all who suffer from Habitual Constipation and kindred ills. Being in liquid form and pleasing to the taste, harmless in its nature, strengthening as well as cleansing in its effects, and therefore the favorite family remedy, especially with the ladies and children, who require a gentle yet effective laxative. For sale by H. B. Garner.

The notorious house on the Greenville road near the fair grounds was burned to the ground Friday night.

## THE OHIO VALLEY ROAD.

### An Interesting Talk with President Kelsey Regarding its Prospects.

Nashville, American, Saturday.  
Mr. P. G. Kelsey, President of the Ohio Valley Railroad Company, which is now building a line south from Henderson, arrived in this city yesterday on his way to Florence, Ala. It will be remembered by those interested in the matter that a move had been put on foot to bring the Ohio Valley road to Nashville, and unless something unforeseen happens the belief is with the citizens duelling the matter that the effort will be successful.

Mr. Kelsey was met at the Maxwell House last night by an American reporter and asked regarding the progress of his road and its destination.  
"We are now," he said, "laying rails at the rate of a mile a day, and unless the storm of this morning seriously interrupted the workmen, the road will be completed to Marion Monday night, making fifty-five miles of track. Work will be then suspended for a few weeks, while the engineers are finishing their surveys, and the bed is being graded to Princeton. We will reach this place, which is ninety-five miles from the starting point, about the first of next October. Beyond Princeton I am not prepared to say which direction we will take. The engineers are making surveys south. As to reaching Clarksville, that will have to be done by a branch line. It is not settled yet whether this will be built, though we have no doubt of extending the branch to Hopkinsville."

"What can you say about coming to Nashville?"  
"I am not in a position to say anything now on that subject. We must make one step at a time. As I have stated to citizens here, I expect to be able before very long to lay plans before them, and they can then take what action may seem best."

## TOO MUCH FOR PREMIUMS.

T. S. Gardiner, of Kentucky, is Chased by the Postal Authorities At Chicago—His Farm Journal.

CHICAGO, April 21.—The postoffice authorities have stopped the delivery of registered mail to T. S. Gardiner, and several publications by the name of the Farm Journal, Farmers' Album and Farming World. It is claimed that Gardiner has for some time been receiving over fifty registered letters a day, each containing a postal order for from \$5 to \$12. He has sent out 3,000 circulars and specimen copies of paper as second-class matter alone. The Superintendent stopped some 13,000 copies of Gardiner's Farm Journal, and demanded to be shown the subscription list. Three weeks have passed, but the 13,000 copies are still lying in the basement of the postoffice. Every subscriber was promised a \$2 premium order, to be cashed later, for an outlay of 40 cents, with a valuable farm journal thrown in for a year, and the man who got up a club was to get a prize of \$25 to \$50. From the replies of subscribers it is claimed Gardiner had sent one copy of his paper, a patent sheet gotten up in imitation of a genuine periodical, to a person who replied, but Gardiner had never paid any attention to clubs, except to take the money.

Gardiner, who is about thirty five years old, is a native of Russellville, Ky. His father, the Rev. W. W. Gardiner, is a prominent clergyman of the Baptist church. T. S. Gardiner was educated for the ministry at Bethel College, and though eccentric in his demeanor, was regarded a young man of great promise. For several years he conducted a farm near Russellville, devoted most of his time to the production of small fruits, his first business venture before the public was the publication of a little paper at Russellville, called the Fruit Farm—Louisville Commercial.

## The State Election.

Last Saturday was a very cold day, and, of course, somebody had to be defeated. Only partial returns have been received from the counties, but enough is now known for us to write to Gov. Buckner, Auditor Hewitt, Treasurer Tate, Register Corbett and Lieutenant Governor Bryan. The contest for Attorney General and Superintendent of Public Instruction are still in doubt and the convention alone can settle them.

In the race for Governor the Courier-Journal's figure are, Buckner 378, within five votes of enough to nominate, Harris 313, Holt 52, Hines 24, Berry 35, unindicted 67. This leaves 37 counties with 120 votes to hear from. Of these 120 votes Buckner will get enough to nominate him on the first ballot beyond the shadow of a doubt.

The Commercial received returns from only 47 counties and gives the following count: Buckner 103, Harris 67, Holt 24, Hines 21, Berry 12. The Commercial concedes that Buckner will go into the convention with 340 instructed votes and, at this is the confession of an enemy, it is evident that the "old hero" has a dead thing of the nomination.

In the race for Attorney General the returns give Hardin 200, Richards 117, unindicted 145. This leaves 24 votes to hear from. These will probably be so divided between the candidates as to leave the contest in doubt, and the fight will be over the uninducted vote. There is no question but that Hardin has decidedly the advantage, but the fight for those 145 votes will be conducted by "stratagem" and it will be "strategic" warfare.

We are unable to give any figures on the race for Superintendent, but certain no candidate has enough votes to be nominated on the first ballot through Prof. Pickett may go into the convention with a decided lead. Should the opposition unite on any one man against him he will be defeated.

## NOT A CANDIDATE.

### Mr. Cleveland Positively Declines a Renomination.

St. Louis, April 22.—A special from Washington to the St. Louis Republican gives the following rather startling information: "President Cleveland's reelection wishes nor will accept a renomination. This will be startling information to the country, settling at rest the important question of a second term, now the subject of interested consideration in political circles everywhere. The correspondent of the Republican has the highest possible authority for the statement, however, and it is not dependent upon as strictly authenticated sources. It comes from the President himself, who made a declaration to this effect on Wednesday to a prominent Democratic Senator from one of the Western States, who is on terms of special intimacy at the White House. He spoke with such deliberation and confidence, and with such a frankness, that the Senator with whom he was talking is certain there is no reason to question his perfect and entire sincerity. His manner, no less than his words, indicated that the declaration was simply the decision of firm resolution which had resulted from careful consideration of all phases of the matter. The President said he had not given any intimation of his feelings to the representatives of the press, for the simple reason that nothing he might say about not wishing or being willing to take a second term would be believed. "I hardly expect anybody to believe it," he said, "except my wife, but it is to none the less."

Continuing, he added: "Everything I do, every appointment I make, they think it is to secure re-election. On the contrary, I am counting the days that remain until my release from office, just as if I were a prisoner in confinement."

## The Leper Goes to Florida.

John Haating, the leper, who was discovered by a reporter in the east end of town the other day, has gone to the Southern part of Florida at the advice of his doctors. His mother, with whom he lived, became aware of his condition from the press accounts, and, fearing infection, advised him to leave. The damp weather that we have recently had had a deleterious effect on his disease. During damp spells, it is said, he suffers from aberration of the mind and has on several occasions, while laboring under it, come near committing deeds of desperation.

## Oil Is Struck.

HENDERSON, Ky., April 21.—Some little excitement and interest has been caused in Union county by the announcement of the fact that petroleum has been discovered oozing out of the ground at a point half a mile from Uniontown, on a piece of ground occupied by Highland-Cool Company, and it is thought that by boring a short distance a sufficient amount of this oil can be obtained to yield a handsome profit. The oil is said to belong to Messrs. John Henth, of Allegheny City, Pa., and W. P. D. Bush, of Frankfort, Ky.

## THE GOLD-BRICK SWINDLE.

NEW YORK, April 21.—What promises to develop a big gold-brick swindle was discovered at United States Assay office to-day. Yesterday a well-known and wealthy gentleman of this city deposited four large bars, supposed to be gold, with the assayer, to be refined and made into standard gold bars. The gentleman said that the bars were from California, and were estimated to be worth \$10,000 each, and that an assay, which had been made, showed the bars to be about 70 per cent. fine. The bars were received and accepted for in the usual form. Shortly after the receipt of Mr. Graham, the receiver of the department, was excited by the light weight of the bars. Samples were taken from the four bars, when it was found that the bars were of copper, with a thin wash of gold on the outside. In short, the bars turned out to be worth about \$4 instead of \$40,000. It is alleged that a fraud has been perpetrated on the gentleman, and that he is another victim of the gold-brick swindle. Up to now he has not called to ascertain the value of the assay.

## THE SAME DENIED.

WASHINGTON, April 23.—Col. Lamont denies the published statement that the President has announced his determination not to be a candidate for re-election, and says the President has spoken to nobody on the subject, and that even he (Lamont) does not know what the President's views on the subject are. The appears to be without foundation.

The Tri-Weekly New Era  
TUESDAY, APRIL 26, 1887.  
The body and its food.  
The body is a very delicate mechanism  
which which the spirit manifests itself,  
and by means of which it is only means  
of manifesting itself in this phase of life.  
That it is designated in scripture as  
"the body of the Holy Ghost" is in language  
more too strong and too impressive.  
Its supplies of food and of sleep—the  
forces that give it motive power—should  
be as carefully ordered in quality and  
quantity that they may produce the best  
results, and leave it in the best working  
condition. This is the law and the prophets.  
It is the "working menu," in the words  
of a successful literary man may be  
noted—a man who combines a large  
amount of creative work with great  
executive ability and the superintendence  
of an intricate and important business.  
On breakfast, steak, cracked wheat,  
a vegetable, not with sugar and cream,  
dry toast, with a very moderate allow-  
ance of coffee. For luncheon and dinner  
he confines himself strictly to good meats,  
one or two vegetables, and good bread,  
and still in very small quantities.  
If desired, he insists on reasonably early  
hours of sleep, and cultivates an intimate  
acquaintance with fresh air. And his  
means of living generates vigor and  
energy of body, and of clearness of mind  
that gives him power to do literally the  
work of three ordinary men in two of  
the three different directions, and to do it  
with extraordinary ease and excellence.  
The gospel of good living may well be a  
subject for serious consideration and  
adoption. —Lillian Whiting in New Orleans  
Times-Journal.

Cases of Self-Consciousness.  
A lady who was neither beautiful  
nor ugly, and could not read, was the  
subject of public remark: "I dislike  
open house cars; one is so conspicuous  
in them!"  
"It never occurs to me that people in  
this busy city have time to notice me,"  
replied another.  
The latter theory is the most satisfac-  
tory; it not only saves one from the  
disagreeable feeling that she is an object  
of disreputable attention, but it has  
the advantage of being much nearer the  
truth. A cat may look at a king, but in  
this busy world, people are usually too  
much engaged in their daily vocations  
of mouse watching to waste her gaze, even  
on royalty.  
A pretty woman, riding one day in an  
omnibus, whispered to her companion:  
"That person stares at me so persistently  
that I must change my seat."  
The gentleman in question was gazing  
not at her with abstracted eyes, and prob-  
ably engaged in innocent mental debate  
upon some business problem.  
Some people are always receiving pub-  
lic affronts, but it is only because they  
live in a state of expectancy. A little  
girl came home from school one night,  
complaining that the "big boys" had  
chased her.  
"Ah," well, placidly replied her  
mother, "if you didn't run they couldn't  
chase you." —Youth's Companion.

A Most Wonderful Instrument.  
Paracelsus has told us, however, how  
to make the "Elixir of Mercury," out  
of which you may make a mirror in  
which you may see all your enemies,  
and the present, absent friends and  
enemies, etc. Take ten parts of pure gold,  
ten of silver, five of copper, two of tin,  
two of lead, one of powdered iron, and  
one of mercury—all pure metals. Wait  
until Saturn and Mercury come into  
conjunction, having all your appliances  
ready for the fortunate moment.  
When the conjunction occurs, melt the  
metals, add the mercury, and let it  
cool. Wait for a conjunction of Jupiter  
with Saturn and Mercury, then melt  
your compound in a crucible, and in  
another crucible melt the iron and the  
two metals together at the moment of  
conjunction. Wait for a conjunction of  
the sun with either of the planets, and  
then melt and add the moon with the  
sun, or Saturn or Mercury, add the silver  
in like manner; and at the conjunction of  
Venus with any of the others, add the  
copper. The last conjunction is with  
Mars, when the iron is to be added, the  
gold stirred with a dry rod of which  
hazel, let it cool—and there you are.

Improving a Pipe.  
"Talking about ingenuity," said a  
drummer to a reporter, "I want to tell  
you what I saw in the winter of '86. I  
was on a train that was moving in for  
three days. The company sent us food,  
but they didn't send any cigars, and the  
train boy's stock of cigars was all gone.  
In the express car we found and con-  
sulted a lot of smoking tobacco, but  
there wasn't a pipe on the train. Among  
the passengers was a man who had a  
few who were just dying for a smoke. He  
got out in the snow and looked around  
for a weed or something of that sort,  
which he might use in making a pipe.  
But couldn't find a thing. I'm going to  
have a pipe, anyhow," he said. So he  
took a lead pencil, opened the wood, took  
out the lead, and placing the two strips  
together again, and with many nips  
the tin foil which came out of the  
packages of smoking tobacco, making  
them air tight. Then he took an apple,  
hollowed a bowl out of it, and had done  
the nicest pipe you ever saw. If you  
don't believe it, try one for yourself  
some time and try it." —Chicago Herald.

Female Vote in Massachusetts.  
The secretary of state for Massachu-  
setts has issued a report showing to  
what extent women have taken ad-  
vantage of the law passed in 1880 per-  
mitting them to vote at school board  
elections. In 1881, 1,571 ladies voted,  
and in 1886, 1,911. The latter possible  
female vote in the state is 340,000, and  
hence it does not appear that even six  
years less than six women out of every  
thousand take the trouble to record their  
votes. —Chicago Times.

Old Women as Physicians.  
There is, says one, a strong tendency  
among the laity to regard the excessive  
mortality of children as a matter of course,  
and to feel that a sick child is a matter  
of an old woman than in those of a  
physician, and this is not to be wondered  
at when we take into account that while  
doctors sympathize with their views, and  
defer to the superior judgment of kindly  
matrons and sapient grandmothers. —Medical  
Journal.

Speaking of Death.  
An old writer, speaking of death, says  
"I do verily believe that it is those terri-  
ble ceremonies and preparations where-  
with we set it out that more terrify us  
than the thing itself; a new, quiet, con-  
trary way of living, the cries of mothers,  
children, and friends, the visits of ac-  
quainted and affected friends, a dark room  
set round with burning tapers; in fine,  
nothing but ghostliness and horror round  
about us, render it so formidable that we  
almost fancy himself dead and  
buried already." —Chicago Times.

New Food for Cattle.  
A new food for cattle, recently pat-  
ented by a German, consists of wood  
sawdust mixed with certain chemicals  
and "other matter," the composition  
forming a "very nourishing and whole-  
some food" for pigs, cattle and horses.

Der porcineus was full of people who  
pelted out to-morrow with being  
back." —Carl Dundee in Detroit Free

WHERE THE HOMELESS SLEEP.  
A Half Hour Among the Vagrants in a  
New York Police Station.  
The room about thirty feet square. In  
the center of it stood a stove glowing  
with fire. Upon the floor, placed  
together like cloths in a box, lay  
sixty men, and one poor weary crea-  
ture of the weaker sex. Most of the in-  
mates were clothed in shabby, worn  
clothes, and some of them were  
of which lay on the stone floor, one of  
the other end raised about ten inches. Some  
slept with their clothes on; others used  
their coats for pillows, and there were  
those who had removed parts of their  
clothing, and were making do with  
efforts to conform to civilized usage.  
The help of checked jumpers and thread-  
bare handkerchiefs. At intervals rose  
like an inverted letter V, resembling  
pale in an article seen.  
The visitor picked his way gingerly  
through the prostrate figures to the stove  
and surveyed the scene, and he gazed  
he wished that the Queen of Sheba might  
have been here to witness the spectacle.  
The room was unique and  
varied, and ranged from the bass tones  
of a bassoon to the shrill nasal quality of  
a clarinet. There was no ventilation,  
even the paper caulking had been re-  
placed after the shutting of the door, and  
the heavy air reeked with heat and  
noisome exhalations, and made the fog  
and the street seem Eden like by comparison.  
A number of late comers, who were  
unable to obtain room enough in which  
to lie down, had propped themselves  
against the wall and were consoled in  
their discomfort by watching each new  
comer as he looked around and realized  
that if he slept at all he would have to  
sleep in an article seen.  
One man had become weary with  
standing. Seeing a vacant six inches of  
board near him he leaped to it and lay  
down, and was restrained by the squatter  
on that territory, who arose from his recum-  
bent position and shook his grimy hat  
threateningly.  
"If you sit down there I'll crack your  
skull!"  
"Lie down, my friend and adjust  
your bedclothing; you may catch cold,"  
said the aggressor, snoring.  
In an audacious manner round the  
room, which was quickly repressed when  
the squatter raised himself on his elbow  
and looked around, trying to detect the  
cause of the disturbance.  
His discovery of the culprit meant ex-  
pulsion, and they knew it. He it was  
who, by the force of the fact that he at-  
tended to the fire and swept out the place  
in the morning, was invested with a sort  
of unofficial authority, which he exer-  
cised with absolute confidence of car-  
riage. When he called out: "Turn down that  
light!" (an incautious word had turned  
up the gas so that he could read a news-  
paper, the gas was turned off, and the  
light was extinguished, and the squatter  
said: "Having also called the attention

William Owen came to town Friday and disposed of a cow for \$28. Late in the evening he took a little too much liquor and was arrested for riding on the pavement. He deposited \$10 with the City Judge for his appearance, and mounting his steed left the city. It seems he went in the direction of the fair grounds, and while out in that vicinity he was met by two men who pulled him from his horse and rifled his pockets. One of the men held him by the throat and threatened to kill him if he made a noise while the other, whom his partner called "Sam," went through his pockets.

## A Cordial Invitation.

Clarksville Chronicle: "The Confederate monument to be unveiled at Hopkinsville on the 19th of May is erected in honor of Tennessee as well as Kentuckians, and we suggest that as the ladies of Hopkinsville have charge of the decorations it would be appropriate for the ladies of Clarksville and vicinity to contribute a selection of choice flowers, knowing as we do that this expression of a kindred feeling would be duly appreciated by all Kentuckians. Let the ladies go and carry the flowers."

His sermons are marvellous for their simplicity, Bible exposition and attractiveness. The meetings continue this week, each afternoon and evening.

Miss Emma Griffith, a well-known young lady of this place, was married at Cerulean Springs, Thursday April 14, at 9 o'clock P. M. to Mr. John A. Long, of Hopkinsville. The ceremony took place at the residence of Mr. S. Goodwin, the bride's uncle, whom she was visiting at the time. Rev. A. W. Maccham officiating. The bride and groom left immediately for Hopkinsville, where they have made their place of residence. The many friends of Miss Emma at this place will congratulate her upon securing so worthy a husband—Princeton Banner.

Mr. Nimrod Long, of the well-known banking establishment of N. Long & Co., died at his home in Russellville about midnight Saturday night. He was one of the oldest and was the richest man in Logan County, where he was born in the year 1814, and where he has ever since lived his long and useful life. He was the founder of the Bethel College, and to his successful management of its financial affairs is due most of its success. His funeral services will be conducted at the Baptist church, of which he was an honored member, this morning at 10 o'clock by Dr. Broadus, of Louisville, assisted by Dr. Sears, of Clarksville, and Rev. S. M. Providence.

Madisonville Times: Martin J. Bigwood, who was cruelly murdered at Eddyville by one Hyland Skinner, a worthless, profligate character, a few days ago, was nephew of Judge J. N. Turner, of this place, and a cousin of Mrs. J. E. Ruby and Mrs. Zoon F. Young. Bigwood was a quiet, inoffensive man, and his murder was most cold-blooded and cowardly. Bigwood left a wife and four children, in almost destitute circumstances. His murder, and had not been arrested at last accounts. He shot Bigwood through the heart, killing him instantly, having gone to Bigwood's place of business with the avowed intention of provoking a difficulty, and wreaking vengeance on him.

As a hair dressing and renovator, Ayer's Hair Vigor is universally commended. It eradicates dandruff, cures eruptions of the scalp, prevents itching and beautifies the hair, and invigorates its falling or turning gray.

## Monument Medals.

Hawes & Galbreath have on sale the beautiful "Monument Medals" which they are rapidly disposing of at 25 cents apiece. The proceeds of the sale are to go into the hands of the executive committee to defray the necessary expenses of the unveiling. The medals are made of white metal exquisitely designed. The pin is a bar beautifully decorated with wreaths. The medal is suspended from the bar by a ribbon of the national colors. The medal itself is about the size of a silver dollar. On one side is a cut of the monument, with the inscription "Erected to the 'Unknown Confederate Dead' by a surviving comrade, Hopkinsville, Ky., May 19, 1887." On the other side are the words "History will preserve the heroic record of the dauntless spirits to whom this monument was erected."

Everybody should purchase one of these beautiful souvenirs.

## Doris & Colvin Circus.

Owing to Doris & Colvin having annexed the wild west department to their monster show, the city authorities wanted to charge them separate licenses but the agent of the show succeeded in convincing them that the whole entertainment was given under one mammoth canvass, and for one price of admission, which entitled them to show for the regular circus license.

A movement is on foot to get the famous lecturer, George R. Wendling, to deliver a lecture in this city in June. We trust Mr. Wendling may be secured.

Kelly's jewelry store is now resplendent in its new dress. The work is quite artistic and shows up elegantly.

Mr. Jas. P. Braden went out on the Clarksville road to the river Saturday afternoon to fish, but the weather being so cold his supply of fish was rather slim.

Owing to the Inter-State Commerce bill and the Showman's Pool League, the Doris-Colvin show is the only big show that will visit Hopkinsville this season.

The storm which swept over Missouri last Tuesday laid waste the property of James Armstrong. Mr. Armstrong is the grandfather of Harvey McCard and both him and wife sustained serious injuries.

The young ladies of Bethel Female college will be given a picnic in a few days. Saturday they held an election for May queen, and after a spirited ballot Miss May Wootton, of this county, was elected.

About a month ago a little girl of Mr. Will L. Boyd's while at play in some way got a large size shoe-button fastened in her nose. Saturday Mr. Boyd brought the little sufferer to Dr. Fugate who removed the button.

Zeno Young has been nominated by the Democracy of Hopkins county as the Democratic candidate for State Senator from this district. Mr. Young has the hearty endorsement of the Democracy of this county and we trust he will prove a tower of strength to his party.

Dr. V. M. Metcalfe will deliver a lecture at Elizabethtown, next Saturday, the 30th inst., his subject being "The Soils and How to Make Them Yield the Biggest Crop." Dr. Metcalfe is not only an interesting lecturer, but on this subject he can probably give farmers more useful and practical information than any other man in Kentucky.

Ed. McIntyre, colored, hung himself at the Asylum Sunday afternoon. He is the same fellow who complained of having his throat cut by a robber some time since. As soon as he recovered from the wound he was sent to the Asylum. He appeared to improve and the physicians allowed him the liberty of the yard. Sunday afternoon he slipped into the tool room and hung himself. When found, life was extinct.

The protracted meeting at the Christian church deepens in interest daily. Saturday there were two baptisms, and Sunday night there were five conversions. Fair audiences have gathered in the afternoon, and full and crowded houses at night, to hear the evangelist, Rev. L. H. Reynolds. His sermons are marvellous for their simplicity, Bible exposition and attractiveness. The meetings continue this week, each afternoon and evening.
